

## ProcessWeaver ERP Integrations **Infor® M3 & CloudSuite + ProcessWeaver®**

### Standardize Outbound Shipping Across All Infor M3 Locations

ProcessWeaver integrates with Infor M3 and CloudSuite to automate outbound parcel and freight shipping within warehouse and distribution workflows, improving accuracy and operational consistency across global sites.

Integration Type

**API and connector-  
based integration for  
Infor M3 & CloudSuite**

### Capabilities That Standardize Global Execution

-  **Utilizes Infor item, warehouse, and order structures** for outbound shipping
-  **Aligns with M3 and CloudSuite** distribution and warehouse management processes
-  **Supports multi-site global deployments** across Infor environments
-  **Enables rapid onboarding** of new warehouses or carriers
-  **Provides shipment status updates** for outbound shipments

### Measurable Outcomes

-  **Standardizes outbound execution** across all M3 and CloudSuite warehouses
-  **Reduces manual work** for high-volume distribution environments
-  **Improves delivery consistency** across global supply chains

# Multi-carrier, Multi-modal Shipping Execution - ProcessWeaver by Elemica

Digitally integrate to our network of 460+ global carriers in over 90 countries from day one with network-based inbound and outbound shipping software for parcel, LTL, TL, and enterprise shipments. Unified shipping manifesting, logistics collaboration, compliance, and visibility tools so you can get the right item, to the right place, at the time promised, for the lowest possible cost.

## Core ProcessWeaver Capabilities

### Global Multi-Carrier Connectivity

- Support for hundreds of global parcel, LTL, TL, Freight Forwards, and Logistics Service Providers.

### Cloud-Ready, Scalable Architecture

- Support multi-site global operations with rapid onboarding for new carriers or facilities.

### Rules-Driven Shipping Automation

- Automate carrier, mode, and service selection based on cost, geography, or business logic.

### Secure Cloud Infrastructure

- SOC 2 and GDPR compliant. Built-in high availability, encryption, and disaster recovery.

### Carrier-Compliant Labels & Documentation

- Generate labels, manifests, customs forms, and compliance documents automatically.

### 460+ Carrier Integrations

- Connect to global, regional, and last-mile carriers, including FedEx, UPS, and DHL.

## Elemica

Elemica is a leading provider of Digital Supply Chain Management solutions and the premier multi-enterprise collaboration network for global process manufacturing industries. Our SaaS portfolio of network-powered digitization and visibility solutions automate critical information flows, enable multi-channel data strategies, and improve end-to-end supply chain performance. Elemica solutions connect many of the world's largest manufacturers to their direct material suppliers, logistics service providers and end customers, helping them realize the promise of, and return on, their investments in supply chain digitization.
