

# ProcessWeaver ERP Integrations NetSuite® + ProcessWeaver®

## Streamline Cloud-Based Fulfillment with Automated Global Shipping

ProcessWeaver integrates with NetSuite to automate carrier selection, documentation, and tracking across fulfillment workflows. Teams gain real-time visibility and consistent cost control without middleware.

Integration Type

**API-based integration  
for NetSuite ERP**

### Capabilities That Standardize Global Execution

-  **Connects shipping execution** to NetSuite's standard fulfillment flows
-  **Pushes tracking numbers and freight amounts** directly to NetSuite transactions
-  **Leverages workflows** for real-time carrier connections for outbound shipments
-  Supports NetSuite **multi-subsidiary and multi-location configurations**
-  **Enables rapid onboarding** of new warehouses or carriers

### Measurable Outcomes

-  **Reduces** manual effort and fulfillment time
-  **Improves customer experience** with real-time tracking
-  **Delivers consistent freight visibility** across NetSuite operations

# Multi-carrier, Multi-modal Shipping Execution - ProcessWeaver by Elemica

Digitally integrate to our network of 460+ global carriers in over 90 countries from day one with network-based inbound and outbound shipping software for parcel, LTL, TL, and enterprise shipments. Unified shipping manifesting, logistics collaboration, compliance, and visibility tools so you can get the right item, to the right place, at the time promised, for the lowest possible cost.

## Core ProcessWeaver Capabilities

### Global Multi-Carrier Connectivity

- Support for hundreds of global parcel, LTL, TL, Freight Forwards, and Logistics Service Providers.

### Cloud-Ready, Scalable Architecture

- Support multi-site global operations with rapid onboarding for new carriers or facilities.

### Rules-Driven Shipping Automation

- Automate carrier, mode, and service selection based on cost, geography, or business logic.

### Secure Cloud Infrastructure

- SOC 2 and GDPR compliant. Built-in high availability, encryption, and disaster recovery.

### Carrier-Compliant Labels & Documentation

- Generate labels, manifests, customs forms, and compliance documents automatically.

### 460+ Carrier Integrations

- Connect to global, regional, and last-mile carriers, including FedEx, UPS, and DHL.

## Elemica

Elemica is a leading provider of Digital Supply Chain Management solutions and the premier multi-enterprise collaboration network for global process manufacturing industries. Our SaaS portfolio of network-powered digitization and visibility solutions automate critical information flows, enable multi-channel data strategies, and improve end-to-end supply chain performance. Elemica solutions connect many of the world's largest manufacturers to their direct material suppliers, logistics service providers and end customers, helping them realize the promise of, and return on, their investments in supply chain digitization.
