

ProcessWeaver ERP Integrations Oracle® + ProcessWeaver®

Automate Multi-Carrier Shipping Across Oracle Order Workflows

ProcessWeaver integrates with Oracle E-Business Suite and Oracle Fusion Cloud ERP to streamline outbound shipping by synchronizing freight, tracking, and compliance data across Oracle order records, which reduces manual entry, improves financial accuracy, and accelerates fulfillment.

Integration Type

Standards-based integration for Oracle E-Business Suite & Oracle Fusion Cloud ERP

Capabilities That Standardize Global Execution

Applies Oracle order, customer, and shipment line data to **drive shipping decisions**

Extends fulfillment with automated carrier and service selection

Writes freight cost and carrier details back to Oracle order records

Integrates with Oracle Cloud and EBS without additional middleware dependencies

Scales across global Oracle deployment

Measurable Outcomes

Improves order accuracy and cost reconciliation

Reduces manual entry across high-volume fulfillment

Supports global scale across Oracle deployments

Multi-carrier, Multi-modal Shipping Execution - ProcessWeaver by Elemica

Digitally integrate to our network of 460+ global carriers in over 90 countries from day one with network-based shipping software for parcel, LTL, and enterprise shipments. Unified shipping manifesting, logistics collaboration, compliance, and visibility tools so you can get the right item, to the right place, at the time promised, for the lowest possible cost.

Core ProcessWeaver Capabilities

Global Multi-Carrier Connectivity

- Support for hundreds of global parcel, LTL, TL, Freight Forwards, and Logistics Service Providers.

Cloud-Ready, Scalable Architecture

- Support multi-site global operations with rapid onboarding for new carriers or facilities.

Rules-Driven Shipping Automation

- Automate carrier, mode, and service selection based on cost, geography, or business logic.

Secure Cloud Infrastructure

- SOC 2 and GDPR compliant. Built-in high availability, encryption, and disaster recovery.

Carrier-Compliant Labels & Documentation

- Generate labels, manifests, customs forms, and compliance documents automatically.

460+ Carrier Integrations

- Connect to global, regional, and last-mile carriers, including FedEx, UPS, and DHL.

Elemica

Elemica is a leading provider of Digital Supply Chain Management solutions and the premier multi-enterprise collaboration network for global process manufacturing industries. Our SaaS portfolio of network-powered digitization and visibility solutions automate critical information flows, enable multi-channel data strategies, and improve end-to-end supply chain performance. Elemica solutions connect many of the world's largest manufacturers to their direct material suppliers, logistics service providers and end customers, helping them realize the promise of, and return on, their investments in supply chain digitization.
